ABOUT ME

I design user-friendly digital products and design systems. My clients include ZocDoc, MCM Worldwide, and Korn Ferry. Primary tools are Figma, Cursor AI, and various task management software

EXPERIENCE

Product Designer - Arena Physica, New York, NY, USA

Nov 2025 – Feb 2026

- At Arena Physica I provided design thinking to develop features for their main product Atlas. I also created interactive prototypes for their clients using Figma.

Product Designer - Freelance, New York, NY, USA

January 2024 – Present

- Design and build digital products using Figma, NextJS, and AI tools.

User Interface Design Contractor - Korn Ferry, New York, NY, USA

December 2022 – November 2023

- Designed software to help recruiters and hiring managers hire specialized talent faster.

User Interface Design Contractor - Blackstone, New York, NY, USA

April 2022 – July 2022

- Worked on their design system and website component updates.

User Interface Design Contractor - TheTradeDesk, New York, NY, USA

October 2021 – March 2022

- I built TheTradeDesk main site's design system, and helped teams design web pages faster.

Freelance Product Designer - Freelance, New York, NY, USA

June 2016 – February 2022

- I designed websites and apps for local and big brands like Zocdoc and MCM.

UI/UX Design Contractor - First Principle - MCM Worldwide, New York, NY, USA

March 2019 – June 2019

- I redesigned their shopping cart journey and improved accessibility.

Lead UI Design Contractor-Novo, New York, NY, USA

March 2018 – August 2018

- I designed their mobile app and helped launch it.
